Indoor Comfort

## Enjoy Luxurious Warmth with the Amana® brand's Premium Furnace

*With the premier Amana brand ACVC95 Two-Stage, Variable-Speed ComfortNet™ Communicating Systems Furnace, you will own what we believe to be one of our best furnaces. Not only will this furnace provide your family with years of reliable warmth in even the harshest of winters, and do so with up to 95% efficiency, it will also minimize the temperature swings that can occur from floor-to-ceiling and room-to-room – year-round. And it's designed to last and last and last!*

*Why are we so proud of this furnace? Because a furnace's most critical component is its heat exchanger, and we consider our unique Million-Air® to be our most durable heat exchanger available. And our SureStart® Ignition System, another critical component, is comprised of a rugged Silicon Nitride igniter. Then there's its performance. This furnace's two-stage heating technology and variable-speed blower ensure ongoing room-to-room and floor-to-ceiling temperature consistency while achieving one of the best energy efficiency levels around. And the furnace's Auto-Comfort mode helps provide superb dehumidification and energy efficiency during every season.*

### Million-Air® Heat Exchanger

The heart of your Amana brand furnace is its Million-Air stainless-steel tubular heat exchanger. Formed using our dual-diameter pipe and wrinkle-bend technologies, the Million-Air is built to last. One of these heat exchangers has endured over 2.4 million extreme-temperature test cycles in our laboratory and is still going strong. The durability of this heat exchanger is one of the reasons we know your Amana brand furnace will last for years to come.

### Energy Efficiency

After product safety and long-term durability, most new furnace buyers are concerned about energy efficiency. A furnace's efficiency can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what

percentage of each dollar of natural gas purchased is actually used to heat your home; and the type of blower used in the furnace. Your new Amana brand Variable-Speed Furnace offers up to 96% AFUE, one of the highest AFUE ratings in the industry.

And its variable-speed blower makes this furnace even more efficient. The low constant fan speed setting typically uses as little energy as that needed to run a 100-watt light bulb. As the furnace runs in low-heat capacity, the unit is able to deliver even warmth throughout the house. The Amana brand AMVC95 Variable-Speed Furnace is one of the most efficient furnaces we manufacture.

### Auto-Comfort Setting

The circulating blower in your furnace plays a role in temperature control in your home year-round – even during cooling season. The

Amana brand ACVC95 Variable-Speed Furnace's Auto-Comfort setting provides superb humidity and temperature control, while maximizing the efficiency of your system. When the thermostat calls for your heating and air conditioning system to cool, our electronic Auto-Comfort technology increases and decreases the blower's speed gradually to achieve optimal efficiency, excellent dehumidification and quiet operation.

### Quiet Performance

Nobody likes being jolted from a deep sleep by a noisy furnace surging on. With your Amana brand ACVC95 Variable-Speed Furnace, you can say goodbye to those rude awakenings. Because the furnace operates on low capacity up to most of the time, it produces just 25% of the normal high-fire and circulating blower sound. And to make our unit as quiet as possible, we fully insulate the furnace cabinet to reduce sound even further.

### FEATURING:

- Premium Performance

### FEATURING:

- Premium Amana® brand Quality

## Built to Last

Your Amana brand ACVC95 Variable-Speed Furnace's cabinet is built using high-quality, leather grain-textured, post-painted steel to resist rust and corrosion. Its elegant design and attractive two-tone Architectural Gray and Executive Gray color scheme complement other Amana brand heating and cooling equipment.

**Asure**<sup>SM†</sup>  
EXTENDED SERVICE PLAN

For even greater peace of mind, ask your dealer or visit our website at [www.amana-hac.com](http://www.amana-hac.com) for more details about Asure<sup>SM</sup> an affordable Parts and Labor Extended Service Plan for your entire Amana brand HVAC system.†

## Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

# PREMIUM WARRANTY\* PROTECTION

*\* Complete warranty details available from your local dealer or at [www.amana-hac.com](http://www.amana-hac.com). To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.*

*† Extended Service Plans not available in all states. Ask your dealer for full details.*

## The Amana® brand **ACVC95** High-Efficiency Gas Furnace advantages:

- Heavy-duty Million-Air® Stainless-Steel Dual-Diameter, Tubular Heat Exchanger
- ComfortNet™ Communicating Systems Compatible
- SureStart® Silicon Nitride Igniter
- Two-Stage Gas Valve
- Efficient and Quiet Variable-Speed Circulator Motor
- Auto-Comfort and enhanced dehumidification modes
- Designed for Multi-Position Installation
- Fully Insulated Heavy-Gauge Steel Cabinet with Durable Baked-Enamel Finish
