We build quality into every component of our Amana® Distinctions® brand heating and air conditioning products. That's why our **Amana Distinctions brand DSSX16 High-Efficiency Air Conditioner** has a Seasonal Energy Efficiency Rating (SEER) of up to 16 — a significant improvement in energy-saving efficiency over many of the lower SEER units installed in homes today. With an **Amana Distinctions brand DSSX16 Air Conditioner**, your savings, versus lower SEER units can add up very quickly — especially in hot weather, when energy use can increase dramatically.

The savings start with our efficient condensing coil design. We use only high-quality rifled copper tubing and corrugated aluminum fins, which withstand the corrosive effects of moisture and extreme temperatures. Additionally, every coil that goes into an **Amana Distinctions brand DSSX16 Air Conditioner** is thoroughly tested.

Combine this coil design with our high-quality scroll compressor, and you have an High-Efficiency **Amana Distinctions brand DSSX16 Air Conditioner** that you can rely on for years to come.

Quality You've Come to Expect from Amana Brand Products

In addition to outstanding energy efficiency, the **Amana Distinctions brand DSSX16 High-Efficiency Air Conditioner** provides you with the following benefits:
